

Oasis Practice Management Software

Presentation Manager

Now you can create professional quality Treatment Presentations, Brochures, Patient Education sheets and Information Forms directly within Oasis. An easy to use Screen Forms Designer lets you construct graphical forms containing any Oasis data or any linked third party information including graphics, movies and animations.

					VIPT 02	0.00	-
02	47	O L	542	1	Play/ortay - metallic 2 surt	0.00	-
02	48	MO D	543	1	Play/ortay - metallic 3 more surt	0.00	-
					Total Treatment Plan Amount	180.00	-

Put details of your analysis here. Oasis enables you to create standard paragraphs. This graphic has been imported from Yaltara Visual Planner.

Your next appointments with our practice are

Patient Name	Details	Doctor Name	Appointment Date	Time
Smith, Mark Mark	VIPT 01	Dr Number 1	Tuesday, February 08, 2006	11:15am

Using a unique "drag drop" interface within Presentation Manager, it's possible to create a professional treatment plan literally within minutes. Oasis related data including dental charts, plans, notes, images can be dragged onto the form. Reusable templates can be created that link this information but also show your practice details and logo, patient details.

Oasis Presentation Manager is ideal for creating any form of linked patient correspondence and improves patient treatment take up rates.

Drawing Tools

Use the inbuilt drawing tools to build a professional form.

Text Tools

Build text paragraphs and place your own text anywhere

Graphics Tools

Insert graphics files, clipboard images from third party Xray and imaging systems, scanned images, digital camera images, patient photographs etc. Version 8.24 now includes direct integration with Examine Pro Xray/intraoral system.

Oasis Information

Drag/Drop all forms of Oasis information including
Oasis Treatment Images
Oasis General Charts
Oasis General Charts (Arch)
Oasis Periodontal Charts
Oasis Treatment Plans
Oasis Clinical Notes
Oasis Specialist Notes
Oasis Diagnostic Worksheets
Oasis Progressive Invoices
Oasis Financial History

Dynamic Merging

Create a template that shows patient details, charts, treatment plans and images and watch as you use the template on a new patient—Oasis will dynamically relink and merge all data for the new patient!

Make any changes to the loaded template for that individual patient and then instruct Oasis to save the Presentation in the patient's Document Library. Oasis breaks the link to any merged information—making it an audited document representing treatment presented at that point in time.

**Oasis Presentation Manager
Limited only by your own imagination!**
