

Oasis Practice Management Software

Restorative Charting

The Oasis Restorative Charting System is the acknowledged market leader in flexible yet powerful dental tooth charting. The System integrates charting, clinical notes, treatment plans and invoicing into a simple, easy to use interface.

Easy to Use Interface	Treatment Plans																											
<p>The Oasis Restorative Charting system offers an exciting, easy to use interface. Divided into two separate charts—Existing and Proposed, teeth/surfaces can be marked for selection and conditions and treatment selected using convenient Speed Buttons or menu keys. Mistakes are easily corrected using an Undo feature. Information windows showing treatment images, tooth check options, clinical notes and diagnostic sheets can be shown/hidden or repositioned as required.</p>	<table border="1"> <thead> <tr> <th colspan="3">Proposed Treatment</th> </tr> <tr> <th>#</th> <th>Date</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>07-08-2004</td> <td>Plan Number 01</td> </tr> </tbody> </table> <table border="1"> <thead> <tr> <th>T</th> <th>Item</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>74</td> <td>511</td> <td>Metallic restoration - 1 surface</td> </tr> <tr> <td>73</td> <td>511</td> <td>Metallic restoration - 1 surface</td> </tr> <tr> <td>15</td> <td>RCT1</td> <td>Root Canal Treatment - 1 canal - treat</td> </tr> <tr> <td>14</td> <td>RCT1</td> <td>Root Canal Treatment - 1 canal - treat</td> </tr> <tr> <td>13</td> <td>RCT1</td> <td>Root Canal Treatment - 1 canal - treat</td> </tr> </tbody> </table> <p>All incomplete charting appears on screen in the Treatment Plan list. You simply click on each item to complete.</p> <p>You can also complete all lines in a visit with a single click for faster processing. On completion, Oasis automatically updates the chart graphics and adds clinical notes and invoice item lines avoiding the need for double or triple entry of data.</p>	Proposed Treatment			#	Date	Description	1	07-08-2004	Plan Number 01	T	Item	Description	74	511	Metallic restoration - 1 surface	73	511	Metallic restoration - 1 surface	15	RCT1	Root Canal Treatment - 1 canal - treat	14	RCT1	Root Canal Treatment - 1 canal - treat	13	RCT1	Root Canal Treatment - 1 canal - treat
Proposed Treatment																												
#	Date	Description																										
1	07-08-2004	Plan Number 01																										
T	Item	Description																										
74	511	Metallic restoration - 1 surface																										
73	511	Metallic restoration - 1 surface																										
15	RCT1	Root Canal Treatment - 1 canal - treat																										
14	RCT1	Root Canal Treatment - 1 canal - treat																										
13	RCT1	Root Canal Treatment - 1 canal - treat																										
Speed Buttons	Clinical Notes																											
<p>Treatment procedures are quickly selected using tailorable menus or convenient speed buttons. (You can change these yourself using the Oasis Icon Designer)</p>	<p>Clinical Notes are created on completion of treatment or you can manually add your own add hoc notes. To speed up the process you can click on preset abbreviations. The Clinical Note system comes under the patented Oasis Auditing System meeting the most exacting medico-legal requirements. The position of the Clinical Notes window within the Charting window is user definable.</p>																											
Operation Modes	Chart Presentation																											
<p>Oasis works in two Modes for faster charting. You switch between mode using a single click button. This means you can chart with or without Treatment Plans according to your individual dentist or practice requirements.</p>	<p>Oasis offers a range of functions for the printing and presentation of General Charts.</p>																											
<p>INVOICE MODE. Assumes work is being done on the spot. When you select treatment, Oasis automatically charts, adds notes and invoices the patient.</p>	<p>Any chart can be printed in monochrome or color as per the screen or represented in arch format.</p>																											
<p>PLAN MODE. Assumes work is being done at a later date. When you select treatment, Oasis charts and adds details to the patient's Treatment Plan for later completion.</p>	<p>Any chart can be exported to PDF format for email or CD burning purposes. The chart can also be exported to the patient's Document Library or imported into the Oasis Presentation Manager for professional styled treatment plans.</p>
