# THE TOOLS OF THE TRADE – OASIS PRACTICE MANAGEMENT

Oasis is modular - you can select the elements you need to meet today's operational requirements (and budget) – safe in the knowledge that more functionality can be added as your business requires it. The three main modules at the heart of the Oasis solution are; My Money, My Time, My Work with additional component tools available for specialist requirements.

## My Money

- *Increase productivity*
- *Automate tasks*
- *Manage recalls*
- *Simplify billing*
- *Produce clear reports*
- *Run back-ups*
- *Send out patient communications*

My Money gives you:

- Practice-wide access to patient files and correspondence
- A wide range of time-saving recall and marketing strategies including word, telephony, SMS and email options
- Statistics and reporting options to manage your practice and help you identify what's working and not working
- The tools to utilise your patient database for growth
- Billing systems that manage all treatment and payment options including HICAPS
- The ability to minimise outstanding debts

## My Time

- *Set financial goals*
- *Accommodate individual patient requirements*
- *View patient attendance records and create time saving strategies*

My Time allows you to:

- Simply point and click to set, amend, delete, copy, link, or move an appointment from one book to another
- Use your appointment book to set daily financial goals and plan to profit
- Know instantly which patients require future appointments
- Schedule patients for optimal use of valuable surgery time
- Create a task manager for each individual staff member
- Use prompts and reminders to ensure actions are completed on time and with efficiency

## My Work

- *Manage clinical notes, charting, imaging and treatment plans from one central location*
- *Create fast presentations*
- *Generate invoices with a click of your mouse*
- *Patient information at your fingertips*

My Work allows you to:

- Create fast patient presentations and show patients the whole picture with graphical treatment plans, appointment breakdowns and varying pricing options
- Have immediate access to restorative and periodontal charting
- Access flexible options that help you to manage a patient's oral care
- Integrate with a wide range of independent x-ray and camera systems with a seamless link between the patient's records and their stored images
- Access treatment planning tools that are detailed yet easy to use, with the flexibility to create multiple plans and scenarios depending on the patient's requirements
